

ELEVATE YOUR fall beauty LOOKS

WITH KIRIN'S EXPERT SECRETS

FIRST THINGS FIRST: SPF

As we head into the fall season, don't forget to keep applying your SPF every morning! Ensure your skin is protected from the sun's rays to embrace your inner glow all year round.

HYDRATE & REJUVENATE

For a radiance booster, make sure to lock in your skincare with a moisturizer to pack your skin with nurturing ingredients, leaving your skin soft and hydrated.

ADD A SERUM INTO YOUR BEAUTY ROUTINE

To create a youthful glow, add 2-3 drops of hyaluronic acid onto your skin. This creates a great hydration base, ensuring glowing plump skin and minimizing fine lines and wrinkles. It also helps improve your skin barrier over time.

EMBRACE YOUR GLOW WITH A BRONZE

I love to include bronzer in my everyday beauty routine to create a sun-kissed glow throughout the year. Adding a bit to the high points of your face - onto your temples, cheekbones, and jawline will do just the trick! Just mimic where the sun naturally hits.

CURATE A WARM BEAUTY PALETTE

Embrace a fall palette by incorporating browns, golds, deep maroons, burnt oranges and rusts to create a cohesive look for fall. By including these shades into your eyeshadow looks by softly blending onto the center of your lids and softly blending outward toward your temples, you'll create a diffused autumnal look that will add depth and warmth onto your overall look.

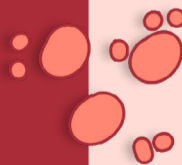

MAKE A STATEMENT

Experiment this fall with bold lip looks! From a spectrum of reds to gorgeous plum and berry shades, there is a gorgeous array of shades that will make a statement.

NATURAL FLUSH FOR FALL

To lean into the colder weather, add two dots of cream blush onto your skin to create a flushed, rosy cheek effect. Once applied, lightly tap with a brush or fingertips in circular motions to create that stunning effect.

SET YOUR LOOK

To keep your makeup fresh all day long, add a setting powder to your finished makeup look by dusting it onto your skin with a fluffy brush. Once your powder is set, set your look with a setting spray to lock in your makeup.
